

**Training programme on
Laboratory Animal Management and Handling for Research Scholars
Directorate of Centre for Animal Health Studies, TANUVAS, Chennai 600 051**

The Laboratory Animal Medicine (LAM) unit was commissioned in 1973 with the objective of breeding, maintenance and supply of quality research animals. The unit is modernised with sophisticated instruments such as HVAC system, barrier housing and dual corridor Class100000 clean room facility with quarantine area for maintaining the micro and macro environmental conditions for laboratory animals. This unit is now functioning under the Directorate of Centre for Animal Health Studies, TANUVAS and is committed to produce quality laboratory animals to cater the needs of researchers.

To address the shortage of expertise in conducting animal studies, LAM unit is offering training programs to all categories of personnel involved in laboratory animal management and research such as animal keepers, research scholars and scientists. In this connection, LAM unit will be conducting three day training programme on 'Laboratory Animal Management and Handling for research scholars' **from 03rd to 5th May 2017** at Laboratory Animal Medicine Unit (LAM), Madhavaram Milk Colony, TANUVAS, Chennai 600051.

Postgraduate students, Doctoral research scholars and research fellows involved in animal based experiments are eligible to apply. The training will include lectures, visit to animal house, hands-on practical sessions and case studies. The number of candidates per training batch will be restricted since practical classes are involved. Candidates will have to make their own arrangements for accommodation and transport. Working lunch and tea will be provided on the days of training.
