| | Minimum (%) | 60 | 60 | 50 | 50 |

C) Special Weather Advisory Bulletin for Dairy and Poultry Farming:

1. For next four days, though south west monsoon is less active over the state, there will be high wind speed with max temperature of 35.0°C (95.0°F). Humidity will also slightly on the higher side with less chance of precipitation except occasional drizzling at one or two places. Continue use of curtains on the sides of poultry houses. Further, controls fly propagation in the farm premises.
2. Post mortem observations in the birds brought for diagnosis at Poultry Disease Diagnosis and Surveillance Laboratory, VC & RI, Namakkal revealed death of birds due to ***upper respiratory tract infection***. Hence, farmers are advised to follow appropriate bio-security measures in the farm.

D) Special Agroadvisory from Krishi Vigyan Kendra Namakkal :

3. This season is suitable for cultivation of small *onion*. Before sowing onion, seed treatment with *Trichoderma viride* @ 3 g /kg of seed bulbs should be done 12 hours prior to sowing.
