TAMIL NADU VETERINARY AND ANIMAL SCIENCES UNIVERSITY

Date

6th - 7th March 2025

Third National Veterinary
Practitioners Conference on

**CURRENT TRENDS AND UPDATES
IN SMALL ANIMAL PRACTICE**

Venue

**Madras Veterinary College
Chennai - 600 007**

Organized by

**DIRECTORATE OF CLINICS
TAMIL NADU VETERINARY AND ANIMAL SCIENCES UNIVERSITY
Chennai - 600 051**

ABOUT THE CONFERENCE

The Third National Conference for Veterinary Practitioners is a unique program organized by the Directorate of Clinics at the Tamil Nadu Veterinary and Animal Sciences University, aimed at benefiting veterinary practitioners in India. With pet parents and farmers expecting early diagnosis and specific treatments that meet global standards, it is essential for veterinary practitioners to update their skills and knowledge in the latest advancements in clinical practice.

This conference offers a valuable opportunity to enhance knowledge through lead presentations from eminent resource persons in relevant disciplines. Additionally, practical demonstrations on key diagnostic and therapeutic technologies will help practitioners upgrade their skills. Furthermore, the conference provides a platform for practicing veterinarians to share their clinical experiences and interact with the fellow practitioners and experts. The topics covered will encompass all three clinical disciplines: Clinical Medicine, Surgery, and Gynaecology & Obstetrics.

ABOUT TANUVAS

Tamil Nadu Veterinary and Animal Sciences University (TANUVAS) was established in 1989 and is dedicated to achieving excellence in education, research, and extension in the fields of veterinary, animal, and food sciences. The university offers exceptional clinical services for various animal species, including farm, companion, and exotic animals. It encompasses all disciplines, including medicine, surgery, and gynaecology. TANUVAS handles over three hundred thousand cases annually, including referrals from across the nation. The university boasts a team of clinical experts and state-of-the-art diagnostic and therapeutic facilities that meet global standards. These facilities include a CT scan, ophthalmology services, an interventional medicine unit, an emergency and critical care unit, orthopaedic care, a blood bank, operation theaters, computerized radiography, and in-patient facilities for both large and small animals.

ABOUT THE WORKSHOP

The Pre-conference Workshops are scheduled on 05.03.2025 and will focus on the Recent Advances in small animal Practice to meet out the growing global needs. The topics for the workshop are:

1. Emergency and Critical Care
2. Veterinary Ultrasound
3. Veterinary Ophthalmology
4. Reproductive Ultrasonography in Dogs and Cats
